Minor edit... She got the info initially from an earlier Factsheet we sent out in January/February.

Thanks

Subject: US Oil Recovery Citizen Call Details

John and Charles

I just got off the phone with Adam and as requested here is the background and nature of the call that Adam Adams had with (b) (6), based on my conversation with Adam.

(b) (6) had called Adam in Feb/March 2013 timeframe after seeing the POLREP on USOR. She called Adam back during Thanksgiving timeframe and mentioned that she will be getting an attorney to come after us. She had heard that Harris County received money from the settlement with Klaus Genssler and wanted her share of the money. She mentioned to Adam that she lives (b) (6). Her number is (b) (6). She reports health problems from being in the bayou in 2004 and mother's day 2010. She indicated her daughter lost an eye resulting from being in the bayou, and that the doctor indicated it was from "toxins from the USOR facility." Adam explained to her all the removal that has been going on at the Site to stabilize the Site. He also referred her to the DSHS. After Adam explained to her the status she seemed to calm down and felt comfortable after that.

Adam, if you need to clarify or change anything please feel free to do so.

John/Charles if you have questions on the conversation Adam had with (b) (6) please contact Adam (x2779).
